

SPRING 2024

CHEMISTRY INSIDE YOU

Chemistry abounds in the real world, but few reactions in chemistry feel quite as intimate as those taking place

molecules we eat and why we need them, as well as learning why nutrition research sometimes seems so confusing and fraught, as though scientists make

popular diets, learn how food molecules fuel our activities, and tackle what some of the latest science is revealing about the importance of the microbiome.

YOUR INSTRUCTOR: KJIR HENDRICKSON, PHD (they/them)

Kjir Hendrickson is a Teaching Professor in the School of Molecular Sciences at Arizona State University; they hold a PhD in chemistry and

the reciprocal relationship between science and society, and matters of workplace climate and DEIJ in STEM.

TUESDAYS, APRIL 2ND THROUGH MAY 7TH

11AM ALASKA | 12PM PACIFIC | 1PM MOUNTAIN | 2PM CENTRAL | 3PM EASTERN

Live Lecture 1, Tuesday, April 02

Live Lecture 2, Tuesday, April 09

Live Lecture 3, Tuesday, April 16

Live Lecture 4, Tuesday,
